

NORCAL TRACON Tour

A presentation by ATC covering the scope of the NORCAL TRACON including history, area coverage, the radar system, responsibilities of Pilots and Controllers, and the services provided. Time and work load permitting we will enter the Control Room and learn about the Traffic Management Center & its duties. You'll plug into the audio while sitting next to a working Controller giving you the chance to see what is displayed on the digital screen and how traffic is separated and services are provided.

Directions: Directions/Map will be sent to registered participants.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
